Professional Resume

Graphics portfolio resides on the web at www.richardmurrey.com

2000 to 2011 - InDyne, Inc. and Abacus Technologies - Kennedy Space Center, FL

Graphics Specialist

Design and fabrication of graphics supporting the Space Shuttle, International Space Station and Expendable Launch Vehicle programs for NASA direct and other contractors at Kennedy Space Center. Working directly with department supervisors, planning and executing design and finishing solutions for a myriad of projects ranging from tent cards, name tags, menus, expo convention displays, large format posters, and conceptual illustrations. Many projects were produced for internal agency use only and carried security level approvals not for public display. Participated in the Visual Comprehension & Analysis Team of Mars Rover surface photography from Spirit and Opportunity and orbital images from the M.O.C. (Mars Orbital Camera).

1995 to 2000 - White Mountain Inc. - Bishop, CA

Director of Communications

Concepted, designed and produced all communications, advertising and marketing materials for a diverse agri-business producing natural and organic beef, feed supplements, alpine water and soft-ripened cheeses (The Marin French Cheese Factory in Petaluma, CA) and a CADD software division. As a one man department, produced collateral materials, in-store posters, brochures, mailers, coupon incentives, food packaging, software packaging, web elements, managed the production and flow of work in a very remote area of the country.
